**Dates Received or Inspected : 6/16/2008 though 6/30/2008**

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
KCRO	6/17/2008	6/3/2008	SCHNEITTER FIREWORKS & IMPO	Amazonia	Andrew	Burning	David Linn	ACB	KC16
<b>Comments</b>	Mr. Aaron Bleibaum, an inspector with the Missouri Department of Natural Resources' Kansas City Regional Office (KCRO), noted on May 5, 2008, Schneitter Fireworks and Importing Company attempted to dispose of damaged fireworks by means of open burning. A ten foot by 20 foot by eight foot pit was dug for the Class "B" mortar shell type fireworks. Diesel fuel was used to ignite the debris. As a result of ignition, a large explosion occurred. Nearby grasslands, timber, and an old shed were burned. The disposal of trade waste by means of open burning is a violation of the state open burning regulation. Mr. Bleibaum issued Notice of Violation (NOV) #KCR16335958 to the reported party.								
<b>Comp. No.</b>	KC0812382	<b>Comp. Info</b>	The complainant reported a fireworks warehouse burned fireworks as a means of disposal.						
KCRO	6/25/2008	6/12/2008	KCP&L IATAN	Iatan	Platte	Fugitive Dust	Anonymous	RAV	
<b>Comments</b>	Mr. Richard Vani, an inspector with the KCRO, observed the fly-ash being transferred from the bin into the truck, but did not observe any overflow during the process and the fly-ash stopped being conveyed once the truck was filled. Mr. Vani did notice a small amount of fly-ash on the ground in the load out area. Mr. Williams stated they would clean up the fly-ash on the ground. Mr. Vani did not observe any fugitive dust problems at the time of the inspection.								
<b>Comp. No.</b>	KC0812385	<b>Comp. Info</b>	The complainant reported dust from the facilities fly-ash transfer. The fly-ash is transferred from a bin to a truck. Often the auger from the fly-ash bin continues to operate after the tank truck has been filled. This causes dust emissions. Also, the area has piles of fly-ash on the ground near the bin and this causes dust emissions.						
KCRO	6/17/2008	6/13/2008	LIFELINE FOODS/MIKE SOBETSKI	St. Joseph	Buchanan	Particulate	Anonymous	MRM	
<b>Comments</b>	Mr. Michael Miller, an inspector with the KCRO, was unable to detect any dust going off-premises at the time of the inspection. The facility has been warned about emissions from the Massa dryer stack noted at a May 12, 2008, inspection. Mr. Miller will schedule periodic surveillance as follow-up.								
<b>Comp. No.</b>	KC0812383	<b>Comp. Info</b>	The complainant reported white specks all over his car that he is not able to brush it off. The complainant believes the white specks are coming from Lifeline Foods, which is approximately two blocks away from the complainant's home. The white residue is caked on the exhaust pipe at the facility. The white specks on his car do not occur on a daily basis, but does happen every so often. The complainant would like to know if it is safe.						
KCRO	6/19/2008	6/17/2008	NATIONAL STARCH & CHEMICAL C	North Kansas City	Clay	Odors	Dan Wayne	RAV	
<b>Comments</b>	Mr. Vani noticed wastewater odors from National Starch but they were not strong enough to detect with the nasal ranger.								
<b>Comp. No.</b>	KC0812377	<b>Comp. Info</b>	The complainant reported all of his neighborhood (Columbus Park) smells bad. The complainant described the odor as a combination of burnt corn, dog food and improperly treated waste water. The complainant also stated the odor is a common and familiar smell to local residents. The complainant believes the likely culprit is National Starch and Chemical Company.						
KCRO		6/18/2008	MOFFET NURSERY	St. Joseph	Buchanan	Burning / Particulate	Anonymous	RAV	
<b>Comments</b>									
<b>Comp. No.</b>	KC0812378	<b>Comp. Info</b>	The complainant stated the nursery on Highway 6 open burns on a daily basis including plastic pots, wooden pallets and tree limbs. The complainant believes the reported party is closer than 200 yards from the nearest inhabited dwelling. The complainant also stated the burning exposes local residents to large amounts of small particulate matter that may or may not be toxic.						

### Monthly Air Pollution Control Program Detail Report

*note: "Comp. Info" refers to complainant information. This is the information the department receives from the complainant and seeks to accurately reflect the nature of the allegation as it was made. Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.*

**Dates Received or Inspected : 6/16/2008 though 6/30/2008**

<b>Region</b>	<b>Inspection Date</b>	<b>Date Received</b>	<b>Suspected Source Owner/Operator</b>	<b>City</b>	<b>County Name</b>	<b>Type of Complaint</b>	<b>Complainant</b>	<b>Inspector Initials</b>	<b>NOV</b>
KCRO	6/19/2008	6/18/2008	NATIONAL STARCH & CHEMICAL C	North Kansas City	Clay	Odors	Dan Wayne	RAV	
<b>Comments</b> Mr. Vani detected odors from reported party's waste water plant but the odor was not strong enough to detect with the nasal ranger.									
<b>Comp. No.</b>	KC0812386	<b>Comp. Info</b>	The complainant stated the reported party's waste water treatment "has gone septic and is stinking up the entire neighborhood (Columbus Park)." The complainant feels something must be done to stop them or force them to take responsibility. The complainant believes simple air dispersion models using the morning's atmospheric meteorological data will prove the smell is coming from the reported party. The complainant also believes the reported party is in serious violation of the state odor regulations.						
KCRO		6/19/2008	CITY OF STANBERRY	Stanberry	Gentry	Burning	Anonymous	RAV	
<b>Comments</b>									
<b>Comp. No.</b>	KC0812387	<b>Comp. Info</b>	The complainant stated the reported party set their city dump on fire. The complainant believes there might be a quarter of an acre of the dump on fire and will probably be on fire for a few days.						
KCRO		6/23/2008	LAFARGE QUARRY	Independence	Jackson	Fugitive Dust	LaVonne Spicer	RAV	
<b>Comments</b>									
<b>Comp. No.</b>	KC0812405	<b>Comp. Info</b>	The complainant noticed aggregate tracked onto Kentucky Road by trucks exiting the quarry. The traffic drives over the aggregate and dust is emitted.						
KCRO	6/25/2008	6/24/2008	BUILDEX	Dearborn	Platte	Particulate	Allen Webb	CW	
<b>Comments</b> Ms. Crystal Wellman, an inspector with the KCRO, spoke with Mr. Barnett of Buildex, who stated he had contacted the department on June 25, 2008, and provided notification of the previous day malfunction, which caused the brief dust emissions. No further action is necessary at this time.									
<b>Comp. No.</b>	KC0812406	<b>Comp. Info</b>	The complainant reported heavy emissions coming out of a green colored stack north of the kiln and the clinker crusher head house.						
KCRO		6/25/2008	UNKNOWN	St. Joseph	Buchanan	Odors	Robin Rhodes		
<b>Comments</b>									
<b>Comp. No.</b>	KC0812409	<b>Comp. Info</b>	The complainant reported odor coming from an area business. The odor is most noticeable in the mornings but can also be detected in the afternoon on occasion. The complainant described the odor as similar to the smell of garlic and mothballs. The complainant stated the odors have been strong this week and believed to be coming from a business that does packaging for land and garden supplies.

**Dates Received or Inspected : 6/16/2008 though 6/30/2008**

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
KCRO	6/25/2008	6/25/2008	EVELYN CLAYPOLE	Excelsior Springs	Clay	Burning	Excelsior Springs Fire Dept.	ACB	KC13
<b>Comments</b>	Mr. Bleibaum noted on June 24, 2008, the Excelsior Springs Fire Department responded to an open burning incident occurring at 14423 Salem Road, Excelsior Springs. Multiple parties contacted the Clay County Dispatch and the Central Dispatch. Upon arrival, the fire department identified two burn piles. Materials burning included furniture, an old boat gas tank, a punching bag used for boxing, and household refuse. Witnesses stated the refuse was brought on-site and ignited by the reported party. The material brought on-site originated from an apartment complex owned by the reported party, which is located inside the Excelsior Springs city limits. It is not known if the apartment complex exceeds four dwelling units. The fire department has responded to prior open burning incidents at this location. Mr. Bleibaum issued NOV #KCR13124752 to the reported party.								
<b>Comp. No.</b>	KC0812410	<b>Comp. Info</b>	The complainant stated the reported party is burning debris hauled in from an apartment complex located inside Excelsior Springs City Limits. The property where the debris is being burned is located outside city limits. The debris includes furniture, a boat gas tank, clothing, a punching bag and other refuse. The complainant believes the reported party also owns the apartment complex.						
KCRO	6/26/2008	6/26/2008	CARGILL/AG HORIZONS	Forrest City	Holt	Odors	Anonymous	MRM	
<b>Comments</b>	Mr. Miller detected odor from spoiled corn. The facility will remove the material by July 1-3, 2008.								
<b>Comp. No.</b>	KC0812440	<b>Comp. Info</b>	The complainant reported ongoing odor from Cargil. The citizens in the area are ready to start a petition drive and would like to know the current status of the facilities compliance status.						
KCRO	6/27/2008	6/26/2008	CARGILL/AG HORIZONS (MR. DAVI	Forrest City	Holt	Odors	Mark Gearhart	MRM	
<b>Comments</b>	Mr. Miller detected odor from spoiled corn. The facility stated the material will be removed by July 1, 2008.								
<b>Comp. No.</b>	KC0812441	<b>Comp. Info</b>	The complainant reported odor from the Cargil corn storage facility.						
KCRO		6/30/2008	MFA-COWGILL	Cowgill	Caldwell	Odors / Storm Water	Anonymous		
<b>Comments</b>									
<b>Comp. No.</b>	KC0812412	<b>Comp. Info</b>	The complainant stated a grain elevator operated by MFA has cleaned out their grain silos and left the rotten grain on the ground. The odor is very bad and the complainant is worried about the run-off affecting the streams. The complainant also stated the grain has been on the ground since June 26, 2008.						
KCRO		6/30/2008	MIDWEST SANDBLASTING	St. Joseph	Buchanan	Burning	Bill Brinton		
<b>Comments</b>									
<b>Comp. No.</b>	KC0812420	<b>Comp. Info</b>	The complainant stated the reported party is burning tires and construction debris. The fire is out.

This is the information the department receives from the complainant and seeks to accurately reflect the nature of the allegation as it was made. Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.*

**Dates Received or Inspected : 6/16/2008 though 6/30/2008**

<i>Region</i>	<i>Inspection Date</i>	<i>Date Received</i>	<i>Suspected Source Owner/Operator</i>	<i>City</i>	<i>County Name</i>	<i>Type of Complaint</i>	<i>Complainant</i>	<i>Inspector Initials</i>	<i>NOV</i>
NERO	6/16/2008	6/9/2008	SHOW ME MOTORS	Centralia	Audrain	Burning	Anonymous	DLK	
<b>Comments</b>	Mr. Don Kinkhorst, an inspector with the department's Northeast Regional Office (NERO), met with Mr. John Leykamp, the owner. Mr. Leykamp stated he had burned untreated wooden crates and cardboard and he had not been aware of the open burning regulations. Mr. Kinkhorst conducted an Environmental Assistance Visit (EAV) with Mr. Leykamp concerning open burning and waste disposal requirements. Mr. Leykamp also stated the waste was a result of Outdoor Power Equipment, a small engine sales company at the same location with same ownership.								
<b>Comp. No.</b>	NE08843	<b>Comp. Info</b>	The complainant stated the reported party is open burning what appears to be demolition waste.						
NERO	6/16/2008	6/12/2008	JOSH SLATER/PLANT MANAGER	Mexico	Audrain	Burning / Odors	Bill Groom	DLK	
<b>Comments</b>	Upon entering the facility, Mr. Kinkhorst detected odor at a four to one dilution ratio. The odor was similar to that of burning household waste, plastics and paper. Two thermal oxidizers were operating at approximately five to ten percent opacity, white plumes. Mr. Kinkhorst met with Mr. Jim Lightsey, the owner. Mr. Lightsey stated they had a power outage on June 1, 2008, that shut down circulation fans and may have caused an opacity issue but it had happened in the middle of the night. The facility burns in the thermal oxidizers 24 hours per day seven days per week. Mr. Kinkhorst did not observe any violation at the time of the investigation. Mr. Kinkhorst requested the complainant notify the department of odor and smoke when it occurs so it can be observed by an inspector.								
<b>Comp. No.</b>	NE08839	<b>Comp. Info</b>	The complainant reported sulfur odor from burning at Arch Industries in Mexico. There is rolling black smoke all over the area. The reported party burns early in the morning from at least 8:00 a.m. until about 10:00 a.m. They are at the former A.P. Green Refractory plant.						
NERO	6/20/2008	6/13/2008	DERRICK FEE	Chillicothe	Livingston	Asbestos	Anonymous	MGS	
<b>Comments</b>	Mr. Michael Sudholt, an inspector with the NERO, noted all houses have been inspected and notifications sent to the department's APCP. Green Hills Regional Planning Commission was told the buildings are exempt from the requirement to notify. The hauler is required to submit landfill receipts in order to receive payment for the work. Mr. Sudholt did not find any violation of the asbestos regulations.								
<b>Comp. No.</b>	NE08846	<b>Comp. Info</b>	The complainant reported Red Rock Company of Hamilton is hauling demolition waste from a house in Chillicothe. The complainant stated that the reported party works Friday through Monday when the landfills are closed.						
NERO	6/16/2008	6/13/2008	PSF WHITETAIL	Unionville	Putnam	Odors	Melody Torrey	SMB	
<b>Comments</b>	All complaints are logged and reviewed for development of an effective investigation strategy. Regional office staff will conduct an odor investigation at a later date when weather conditions are predicted to be similar to the conditions noted by the complainant. Mr. Steve Boone, an inspector with the NERO, noted the second report does not allege a violation of the Confined Animal Feeding Operation (CAFO) odor regulation. For a violation of the Class 1A odor standard, odors must be experienced at a location beyond the property boundaries of the facility. Odors within PSF property boundaries are not a violation of this standard.								
<b>Comp. No.</b>	NE08857	<b>Comp. Info</b>	On June 12, 2008, the complainant filed the following two reports of odors from PSF Whitetail, "June 12, 2008, Fred, Leta, and Melody Torrey would like to file an odor complaint. A strong gassy odor moved in around 5:00 p.m. this afternoon while we were working in the shop. The odor made it difficult to breathe. We could not get the shop closed up fast enough and even then the odor was still with us. There was a man here with us and he thought the odor was horrible also." and "June 12, 2008, Melody Torrey would like to file an odor complaint. As I drove by the site this morning I encountered strong odors coming from their factory farm. It made it difficult to breathe and burned my nose."

**Dates Received or Inspected : 6/16/2008 though 6/30/2008**

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
NERO	6/17/2008	6/17/2008	UNKNOWN	Powersville	Putnam	Odors	Conrad Farm	DLK	
<b>Comments</b>	Mr. Kinkhorst noted the weather reports indicated on June 12, 2008, during the afternoon, the wind was out of the west northwest at three miles per hour, 68 degrees Fahrenheit and 73% humidity. On June 16, 2008, at 7:00 p.m. the wind was out of the north northwest at 11 miles per hour, 73 degrees Fahrenheit and 37% humidity. All complaints are logged and reviewed for development of an effective investigation strategy. Regional office staff will conduct an odor investigation at a later date when weather conditions are predicted to be similar to the conditions noted by the complainant.								
<b>Comp. No.</b>	NE08852	<b>Comp. Info</b>	On June 17, 2008, the complainant filed the following report of odor: "June 12, 2008, strong odor at midday. June 16, 2008, very strong "potent" odor at 7:00 p.m."						
NERO	6/24/2008	6/18/2008	JENNY & PAUL BOATMAN	Norborne	Carroll	Odors	Anonymous	DLK	
<b>Comments</b>	Mr. Kinkhorst found the reported party conducted open burning of clothing and household waste. Mr. Kinkhorst conducted an EAV with the reported party in response to the complaint.								
<b>Comp. No.</b>	NE08855	<b>Comp. Info</b>	The complainant stated strong odors are coming from the reported party's residence at 108 Eastwood Avenue in Norborne. A couple of blocks east of Roger's Service Station at the corner of Route D and Highway 10, east of Norborne.						
NERO	6/24/2008	6/23/2008	CHARLIE STOFER	Bogard	Carroll	Burning / Odors	Anonymous	DLK	
<b>Comments</b>	Mr. Kinkhorst met with the reported party who stated he had burned untreated lumber in a wood stove. The reported party thought this was acceptable according to previous information he received concerning open burning. The reported party stated he dismantled the stove and sold it for scrap prior to Mr. Kinkhorst's arrival and Mr. Kinkhorst could not verify the materials burned. Mr. Kinkhorst informed the reported party the untreated wood can be burned in a wood stove if it is for heating purposes only. Mr. Kinkhorst also told the reported party that burning untreated wood for disposal is a violation. Mr. Kinkhorst provided the reported party with open burning guidance and information and requested he contact the NERO prior to conducting any burning that is questionable. Mr. Kinkhorst did not find evidence of an open burning violation at the time of the investigation.								
<b>Comp. No.</b>	NE08867	<b>Comp. Info</b>	The complainant stated a property owner in Bogard is burning shingles, wood, and other materials in an outdoor stove. The complainant can smell the material burning for four blocks and would like the burning stopped immediately.						
NERO	6/23/2008	6/23/2008	PSF VALLEY VIEW	Green City	Sullivan	Odors	Russell Alexander	SMB	
<b>Comments</b>	All complaints are logged and reviewed for development of an effective investigation strategy. Regional office staff will conduct an odor investigation at a later date when weather conditions are predicted to be similar to the conditions noted by the complainant.								
<b>Comp. No.</b>	NE08872	<b>Comp. Info</b>	The complainant reported hog odors were bad at his house at 7:00 a.m. The complainant believes the winds were blowing out of the east and the odors came from PSF Valley View. The complainant then stated the winds were blowing out of the southeast at 8:15 a.m. and the odors had let up. The complainant rated the odor at a four on a scale from one to five, with five representing the strongest odor.						
NERO	6/24/2008	6/24/2008	PSF WHITETAIL	Unionville	Putnam	Odors	Melody Torrey	SMB	
<b>Comments</b>	All complaints are logged and reviewed for development of an effective investigation strategy. Regional office staff will conduct an odor investigation at a later date when weather conditions are predicted to be similar to the conditions noted by the complainant.								
<b>Comp. No.</b>	NE08876	<b>Comp. Info</b>	On June 24, 2008, the complainant filed the following reports of odors from PSF Whitetail, "June 19, 2008, and June 23, 2008, I had some people who would like to file an anonymous complaint about the odors we have been getting the past few days. They stated the odor has been terrible at their house and their company was even complaining about the stench while being there."

Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.*

**Dates Received or Inspected : 6/16/2008 though 6/30/2008**

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
NERO	7/1/2008	6/26/2008	PARK PLACE SIGN SYSTEMS INC.	Hannibal	Marion	Odors	Anonymous	DLK	
<b>Comments</b>	Upon arrival at the site Mr. Kinkhorst did not detect any odors. Mr. Kinkhorst met with Mr. Bill Baker, President, of Park Place Sign Systems, Inc., informed him of the odor complaint, and requested a tour and explanation of the activities that took place at the facility. Mr. Kinkhorst observed three potential sources of odor from the facility. The first area included two laser cutting units used to cut shapes in acrylic. The second area included a parts washer and two photopolymer machines. The third area is a paint booth. In order to determine which potential source is most likely the cause of the odor, Mr. Baker proposed operating the laser cutting units and identifying if the odor would be a violation of 10 CSR 10-3.090, "Restriction of Emission of Odors." Upon operation of the laser units, it was determined this was most likely the source of odor cited in the concern. Mr. Kinkhorst detected odor from the laser cutting units in excess of the seven to one dilution threshold. The odor was readily detectable on a blank setting using the Nasal Ranger. As the odor was emitted during a voluntary test by the facility, a violation of the odor regulation was not cited. Mr. Baker stated he would be in contact with the manufacturer of the laser cutting units to determine a practical and cost effective control device for the units. Mr. Baker will also install the control as soon as possible. Mr. Kinkhorst did not observe any violation of the odor regulation at the time of the investigation.								
<b>Comp. No.</b>	NE08883	<b>Comp. Info</b>	The complainant reported strong odors from Park Place Signs in Hannibal. 2019 30th Street, Hannibal - just off Market Street

NERO	7/2/2008	6/27/2008	ARCH INDUSTRIES	Mexico	Audrain	Odors / Burning	Eddie Belcher	DLK	
<b>Comments</b>	Mr. Kinkhorst detected a slight odor upon arrival down wind from the facility at approximately 10:00 a.m. The odor was not detectable at any concentration with the Nasal Ranger. Mr. Kinkhorst did not observe any visible emissions any violations at the time of the investigation.								
<b>Comp. No.</b>	NE08890	<b>Comp. Info</b>	The complainant reported he and his neighbors are having lots of smoke and plastic fumes from the company located at the old A.P. Green Plant (Arch Industries). The smoke is bad three or four nights per week and it comes into his house. The complainant is located a half of a mile away from the reported party and it is still bad. At times, it covers the whole east side of Mexico with smoke. The complainant is concerned about the potential health effects from breathing the smoke.

**Dates Received or Inspected : 6/16/2008 though 6/30/2008**

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
NERO		6/27/2008	UNKNOWN	Holts Summit	Callaway	Burning / Asbestos	Anonymous	DLK	
<b>Comments</b>									
<b>Comp. No.</b>	NE08891		<b>Comp. Info</b>	The complainant reported building contractors along Highway AA, east of Holts Summit, are burning the construction waste from building homes. The complainant is concerned with the smoke from burning shingles and plywood. The complainant does not know the name of the property owner or the contractor.					
NERO	6/30/2008	6/30/2008	DONALDSON EXCAVATION	Centralia	Boone	Asbestos	Donnie Shelton	MGS	
<b>Comments</b> Mr. Sudholt noted the shed had been removed without an inspection during the summer of 2007. It has no utilities so it does not meet the criteria of a structure under the Applicability Determination Index published by the U.S. Environmental Protection Agency (EPA). Mr. Sudholt did not find any violation of the state regulation for asbestos.									
<b>Comp. No.</b>	NE08895		<b>Comp. Info</b>	The complainant reported demolition waste mixed with clean fill. The concrete originated from the demolition of a building owned by the Centralia School District. Mr. Tom Monroe, engineer with the Audrain County Road and Bridge, stated they were advised by Donaldson Excavation from Mexico that the building had an inspection conducted on it and the clean fill contained no hazardous substances. The concrete fill has been taken to Audrain County Road 109, north of Centralia to a bridge project.					
NERO	6/30/2008	6/30/2008	PSF SOUTH MEADOWS	Browning	Sullivan	Odors	Regina Palmer	SMB	
<b>Comments</b> All complaints are logged and reviewed for development of an effective investigation strategy. Regional office staff will conduct an odor investigation at a later date when weather conditions are predicted to be similar to the conditions noted by the complainant. Mr. Boone noted the winds were out of the west northwest at 15 miles per hour at both times when the odors were noted.									
<b>Comp. No.</b>	NE08901		<b>Comp. Info</b>	On June 29, 2008, the complainant filed the following reports of odors from PSF South Meadows, "I reporting foul hog farm odors for yesterday evening starting at approximately 6:00 p.m. I would rate the odors at a three intensity. Winds were from the west. Also, this morning at 7:00 a.m. with odors still present now at 9:25 a.m., I would rate them at a four. It is nauseating out there and makes working or playing outside miserable for myself and family. The winds are strong and from the west. " The complainant rated the odors on a scale from one to five with five representing the strongest odors.					
NERO	7/1/2008	6/30/2008	UNKNOWN	Powersville	Mercer	Odors	Conrad Eurom	DLK	
<b>Comments</b> Mr. Kinkhorst noted the weather conditions on June 29, 2008 were as follows: The wind was blowing between five and 15 miles per hour out of the north northwest, 61 to 65 degrees Fahrenheit, with 96 % humidity. The weather conditions on June 30, 2008 were as follows: The wind was blowing at approximately five miles per hour out of the north northwest, 60 to 78 degrees Fahrenheit, 50 to 100% humidity. All complaints are logged and reviewed for development of an effective investigation strategy. Regional office staff will conduct an odor investigation at a later date when weather conditions are predicted to be similar to the conditions noted by the complainant.									
<b>Comp. No.</b>	NE08908		<b>Comp. Info</b>	The complainant reported hog odor was bad during the afternoon and evening of June 29, 2008. The hog odor was also bad during the early morning and throughout the evening of June 30, 2008.

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
SERO	6/23/2008	6/13/2008	BILL GILLIAN	Broseley	Butler	Particulate	Roscoe Mondy	DRL	
<b>Comments</b>	At the time of the inspection, Mr. Dennis Lyons, an inspector with the Southeast Regional Office (SERO), did not observe any product leaving the property line. The office personal stated they have not received any complaints from any of the neighbors. Mr. Lyons noted the complainant's garden is less than 15 feet from the north property line. Mr. Lyons left a message for the reported party to contact the department if he has any questions about his requirement to keep all of his products from blowing or washing off his property. No further action necessary at this time.								
<b>Comp. No.</b>	SE08998	<b>Comp. Info</b>	The complainant reported fertilizers and different chemicals blowing over from the grain company and it's killing all of the complainants plants, vegetables, and trees. The complainant is having trouble breathing and can't go outside because of the chemicals blowing over.						
SERO		6/18/2008	MARQUAND SCHOOL	Marquand	Madison	Asbestos / Open Dumps	Anonymous		
<b>Comments</b>									
<b>Comp. No.</b>	SE081006	<b>Comp. Info</b>	The complainant reported the Marquand School Board had asbestos removed and it was dumped somewhere.						
SERO	6/24/2008	6/18/2008	MELVA WIGGINS	Doniphan	Ripley	Burning / Waste Tire Dump	Anonymous	DRL	
<b>Comments</b>	Mr. Lyons noted the location is far back off the road in a heavily wooded area. It is surrounded by a fence and the gate is locked. Mr. Lyons could not make any observations from the road.								
<b>Comp. No.</b>	SE081007	<b>Comp. Info</b>	The complainant stated the reported party used tires to start a fire to burn several brush piles.						
SERO	6/19/2008	6/19/2008	VILLAGE INN MOTEL	St. Robert	Pulaski	Asbestos	Keven Kearns	WS	
<b>Comments</b>	Mr. Walt Shull, an inspector with the SERO, conducted a telephone investigation with the help of the City of St. Roberts. The department's Air Pollution Control Program (APCP) was notified by someone driving near the front gate of Ft. Leonard Wood that the reported party was demolishing an old motel just outside the main gate entrance on Missouri Avenue (also known as Ft. Leonard Wood Spur). The building was previously known as the Village Inn Motel. The structure has been vacant for more than ten years and was placed off limits to military personnel for many years prior to that. During December 2007, a portion of the motel burned as a result of a suspicious fire and portions of the structure were pulled down by fire personnel while extinguishing the fire. Mr. Shull contacted "Mary" at the City of St. Robert Buildings Department to inquire if anyone had been issued a demolition permit by the city and informed her the department received anonymous information. Mary stated no one had applied for a permit and none had been issued, but she would send her building inspector to investigate. Mary contacted Mr. Shull by telephone approximately two hours later and stated no personnel were present at the site, and no demolition activity was taking place. She stated if someone should apply for a permit she will have them also contact the department for our requirements. She also stated earlier in June, the City Council held a meeting about the area. After Mr. Shull conducted additional investigations, he found out the property is owned by the Marjorie Fields Trust (Norman Fields deceased) and that a Columbia, Missouri developer is looking at developing 96 acres of the 120-acre parcel into a mixed-use development. No personnel present and no demolition activity was taking place according to the City of St. Robert Building Department inspector who personally visited the site. The site may be razed at a later time to facilitate a redevelopment of the property into a mixed-use development with four major components: a strip retail center with major "big box" anchor store; a conference center with at least one hotel for military-related conferences; a public recreational complex and park for city and convention center use; and a business park with commercial offices and light industrial buildings for defense contractors. The City of St. Robert will keep the department informed should a demolition permit be issued and insure the demolition contractor contacts the department for any additional requirements prior to activity commencing.								
<b>Comp. No.</b>	SE081032	<b>Comp. Info</b>	The complainant reported a building being demolished just outside the main gate of Ft. Leonard Wood. The complainant believes the department does not have any required demolition notification on file for that location.

Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.*

**Dates Received or Inspected : 6/16/2008 though 6/30/2008**

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
SERO	7/10/2008	6/20/2008	JOHN & BOB NEIDERKORN	Scott City	Scott	Fugitive Dust / Land Disturbance	Orley Jackson	NW	
<b>Comments</b> Ms. Nancy Wilhelm, an inspector with the SERO, observed the area as stable, not an acre disturbed. Ms. Wilhelm did not observe any violation and spoke with the complainant's son. Ms. Wilhelm requested he advise the department if the area is disturbed again or if any kind of construction begins.									
<b>Comp. No.</b> SE081019 <b>Comp. Info</b> The complainant stated C&S Excavating is clearing out a lot in the city limits and dust is going everywhere. The complainant also stated the reported party does not have a barrier up to block the wind from carrying the dust.									
SERO		6/23/2008	UNKNOWN	Birch Tree	Shannon	Burning / Asbestos	Kim Butler		
<b>Comments</b>									
<b>Comp. No.</b> SE081020 <b>Comp. Info</b> The complainant reported the old Birch Tree High School burned to the ground and she is concerned about the asbestos that burned with it.									
SERO	6/26/2008	6/23/2008	MISSOURI TIE & TIMBER	Reynolds	Reynolds	Odors	Anonymous	JC	
<b>Comments</b> During the investigation, the inspector utilized the nasal ranger. The inspector noted no odor was detectable using the "odor sampling protocols" as written in the odor memorandum. The inspector completed an odor memorandum document sheet. Regional office staff will monitor the facility for violations when in the area.									
<b>Comp. No.</b> SE081023 <b>Comp. Info</b> The complainant stated odors are terrible and never stop. The odor is coming from the treatment building and stacks.									
SERO	6/25/2008	6/25/2008	VICKIE WINEHEART	Fisk	Butler	Burning / Waste Tire Dump	Anonymous	CJB	
<b>Comments</b> Mr. Joe Blume, an inspector with the SERO, did not observe any burning occurring at the time of the inspection. There were two burn piles located on the property where the trailer was. Both burn piles appeared to have had wood burned in them. There were also two piles of insulation that were to be bagged up and one pile of metal from the trailer. The tires, axels and plumbing pipes were still on-site, but had not been burned. The reported party told Mr. Blume a major portion of the trailer was cut up and taken away. Mr. Blume the reported party that the wood from the trailer was not suppose to be burned since it is treated wood waste. The reported party stated she was not aware the wood could not be burned. Mr. Blume issued a letter of warning to the reported party and requested she take the remains to the landfill. Mr. Blume also explained that all trade waste that is accumulated at the site needs to be taken to the landfill.									
<b>Comp. No.</b> SE081033 <b>Comp. Info</b> The complainant stated there is a trailer home that is in the process of being burned down. The reported party is burning everything from the shingles to the tires.									
SERO		6/25/2008	JIMMY BROWN	Haywood City	Scott	Burning	Anonymous		
<b>Comments</b>									
<b>Comp. No.</b> SE081036 <b>Comp. Info</b> The complainant stated the reported party is hauling debris and plastic on-site and burning it within the city limits of Haywood. The complainant reported the action to the city but they have not done anything about it.

SWRO		6/25/2008	GARY DECK	Springfield	Greene	Burning	Adolph Belt		
<b>Comments</b>									
<b>Comp. No.</b>	SW0812283	<b>Comp. Info</b>	The complainant stated an air program violation is about to happen. The complainant stated a landscape contractor is unloading a two-axle trailer onto the contractor's own property. The material is mostly construction waste that is wood based but may contain some metal and plastic as well. The complainant believes the reported party will burn this material because it has happened in the past. At that time, Mr. Richard Barnes, an inspector with the SWRO, arrived on-site. The complainant would like the reported party to stop igniting this material since it is right across the street from the complainant's property.

<b>Comments</b>									
<b>Comp. No.</b>	KC0812419	<b>Comp. Info</b>	The complainant stated the residents of the mobile home park open burn on an ongoing basis. The latest incident involves an individual burning a garage. The smoke goes onto the complainant's property and she breathes the air pollution.						
KCRO		7/2/2008	UNKNOWN	Kansas City	Jackson	Odors	Anonymous	CW	
<b>Comments</b>									
<b>Comp. No.</b>	KC0812434	<b>Comp. Info</b>	The complainant reported a very sweet sickening odor coming from the east along the 15400 block for approximately the past week. The complainant described the odor as similar to butyl ether from an old oil pipeline flushing.						
KCRO	7/8/2008	7/2/2008	LAND O'LAKES PURINA FEED/STE	St. Joseph	Buchanan	Odors / Fugitive Dust	Renee Burress	ACB	
<b>Comments</b> Mr. Bleibaum's investigation revealed no concrete evidence that Land O'Lakes Purina Feed, LLC exceeded the opacity and odor limits. Mr. Bleibaum noted a previous complaint investigation conducted on July 2, 2007, resulted in a Notice of Excess Emissions. The facility was then required to replace the bio-filter media and to repair any and all malfunctions relating to the control device. The waste stream from the "Nuggets" product line contains a high fat content and the temperature is high (140-160 degrees Fahrenheit), therefore, reduces the effectiveness of the control device. Land O'Lakes Purina is currently working on removing this product line from the St. Joseph location and moving it to Russell, Kansas. In the mean time the facility shall ensure that the opacity and nuisance odors are kept below the regulated levels.									
<b>Comp. No.</b>	KC0912466	<b>Comp. Info</b>	The complainant reported a blue haze, bad odor, and dust on cars the past two days. The winds were minimal.						
KCRO	7/8/2008	7/3/2008	ARTESIAN & CITY OF ST. JOSEPH	St. Joseph	Buchanan	Odors / Toxics	Joseph A. Ruiz	ACB	
<b>Comments</b> Mr. Bleibaum conducted an odor investigation in an industrial area located along Highway 759 (Stockyards Expressway) in St. Joseph. Mr. Bleibaum identified the area of concern where three businesses are located. The businesses are the St. Joseph Waste Water Treatment Plant, Artesian Ice Cold Storage, and Prime Tanning. The winds were from the southwest between five and ten miles per hour. Mr. Bleibaum took scentometer readings downwind (northeast) of the businesses but Mr. Bleibaum did not detect any odors using the scentometer. Mr. Bleibaum did detect odors without the scentometer, however, the odors were not particularly strong and he did not issue any violations.									
<b>Comp. No.</b>	KC0812455	<b>Comp. Info</b>	The complainant reported strong chemical odors/ammonia odors emanating from the sewer in an industrial area in St. Joseph. The complainant also reported toxic gases being vented by Artesian, a meat packing plant.						
KCRO		7/7/2008	TEMP RIGHT HEATING & COOLING	Buckner	Jackson	Toxics	Oliver Fields	CW	
<b>Comments</b>									
<b>Comp. No.</b>	KC0812438	<b>Comp. Info</b>	The complainant stated the reported party is scrapping old air conditioning units from homes and cutting the lines, which is releasing freon into the air.

**Dates Received or Inspected : 7/1/2008 though 7/15/2008**

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
NERO	7/1/2008	6/26/2008	PARK PLACE SIGN SYSTEMS INC.	Hannibal	Marion	Odors	Anonymous	DLK	
<b>Comments</b>	Upon arrival at the site Mr. Kinkhorst did not detect any odors. Mr. Kinkhorst met with Mr. Bill Baker, President, of Park Place Sign Systems, Inc., informed him of the odor complaint, and requested a tour and explanation of the activities that took place at the facility. Mr. Kinkhorst observed three potential sources of odor from the facility. The first area included two laser cutting units used to cut shapes in acrylic. The second area included a parts washer and two photopolymer machines. The third area is a paint booth. In order to determine which potential source is most likely the cause of the odor, Mr. Baker proposed operating the laser cutting units and identifying if the odor would be a violation of 10 CSR 10-3.090, "Restriction of Emission of Odors." Upon operation of the laser units, it was determined this was most likely the source of odor cited in the concern. Mr. Kinkhorst detected odor from the laser cutting units in excess of the seven to one dilution threshold. The odor was readily detectable on a blank setting using the Nasal Ranger. As the odor was emitted during a voluntary test by the facility, a violation of the odor regulation was not cited. Mr. Baker stated he would be in contact with the manufacturer of the laser cutting units to determine a practical and cost effective control device for the units. Mr. Baker will also install the control as soon as possible. Mr. Kinkhorst did not observe any violation of the odor regulation at the time of the investigation.								
<b>Comp. No.</b>	NE08883	<b>Comp. Info</b>	The complainant reported strong odors from Park Place Signs in Hannibal.						
NERO	7/2/2008	6/27/2008	ARCH INDUSTRIES	Mexico	Audrain	Odors / Burning	Eddie Belcher	DLK	
<b>Comments</b>	Mr. Kinkhorst detected a slight odor upon arrival down wind from the facility at approximately 10:00 a.m. The odor was not detectable at any concentration with the Nasal Ranger. Mr. Kinkhorst did not observe any visible emissions any violations at the time of the investigation.								
<b>Comp. No.</b>	NE08890	<b>Comp. Info</b>	The complainant reported he and his neighbors are having lots of smoke and plastic fumes from the company located at the old A.P. Green Plant (Arch Industries). The smoke is bad three or four nights per week and it comes into his house. The complainant is located a half of a mile away from the reported party and it is still bad. At times, it covers the whole east side of Mexico with smoke. The complainant is concerned about the potential health effects from breathing the smoke.						
NERO	7/1/2008	6/30/2008	UNKNOWN	Powersville	Mercer	Odors	Conrad Eurom	DLK	
<b>Comments</b>	Mr. Kinkhorst noted the weather conditions on June 29, 2008 were as follows: The wind was blowing between five and 15 miles per hour out of the north northwest, 61 to 65 degrees Fahrenheit, with 96 % humidity. The weather conditions on June 30, 2008 were as follows: The wind was blowing at approximately five miles per hour out of the north northwest, 60 to 78 degrees Fahrenheit, 50 to 100% humidity. All complaints are logged and reviewed for development of an effective investigation strategy. Regional office staff will conduct an odor investigation at a later date when weather conditions are predicted to be similar to the conditions noted by the complainant.								
<b>Comp. No.</b>	NE08908	<b>Comp. Info</b>	The complainant reported hog odor was bad during the afternoon and evening of June 29, 2008. The hog odor was also bad during the early morning and throughout the evening of June 30, 2008.						
NERO	7/1/2008	7/1/2008	MOSELY CLASS IC CAFO	Browning	Sullivan	Odors	Regina Palmer	SMB	
<b>Comments</b>	Mr. Boone noted the state odor regulation does not apply to CAFOs smaller than a Class 1A size. The Mosely Class IC facility is smaller than a Class 1A size.								
<b>Comp. No.</b>	NE08902	<b>Comp. Info</b>	On June 30, 2008, at 9:53 p.m., the complainant filed the following report of odors from the Mosely Class IC CAFO, "I am reporting strong hog farm odors starting at about 8:30 p.m. this evening. My husband and I were outside doing some chores for about 20 minutes and our throats are burning from it. I would describe an intensity of four to be a kind gift at best. Now at 9:40 p.m. I would say it is a two in intensity and fading. The winds are relatively calm (probably why it was so strong for a long time)." The complainant rated the odor on a scale from one to five with five representing the strongest odors.						

## Monthly Air Pollution Control Program Detail Report

*note: "Comp. Info" refers to complainant information. This is the information the department receives from the complainant and seeks to accurately reflect the nature of the allegation as it was made. Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.*

**Dates Received or Inspected : 7/1/2008 though 7/15/2008**

NERO		7/7/2008	DONNY TODD & DON HANSON	Kingdom City	Callaway	Burning	N. Callaway County Fire Prot.	DLK	
<b>Comments</b>									
<b>Comp. No.</b>	NE08921	<b>Comp. Info</b>	The complainant reported on April 28, 2008, the reported parties originally told the fire responder, Ms. Rebecca Stone, they were performing a controlled brush burn. The fire responder observed five or six tires on the fire and assumed the reported parties are responsible for intentionally putting the tires in the fire to dispose of them. The affected property belongs to Mr. Don Hanson. The fire responder reported the burning tires to Ms. Teresa James of the Callaway County Sheriffs Department, who contacted the department's Environmental Emergency Response Hotline.						
NERO	7/7/2008	7/7/2008	UNKNOWN	Green City	Sullivan	Odors	Rolf Christen	DLK	
<b>Comments</b> Mr. Kinkhorst noted the weather conditions at the time of the complaint were calm winds, 90% humidity, 55 degrees Fahrenheit, and clear skies. All complaints are logged and reviewed for development of an effective investigation strategy. Regional office staff will conduct an odor investigation at a later date when weather conditions are predicted to be similar to the conditions noted by the complainant.									
<b>Comp. No.</b>	NE08922	<b>Comp. Info</b>	On July 6, 2008, the complainant filed the following report of odors via e-mail: "Saturday morning from 1:00 a.m. until 9:00 a.m., we had very strong hog odors here at our house. The winds were from the south, sometimes it was very still."						
NERO	7/8/2008	7/7/2008	PSF WHITETAIL	Unionville	Putnam	Odors	Melody Torrey	SMB	
<b>Comments</b> All complaints are logged and reviewed for development of an effective investigation strategy. Regional office staff will conduct an odor investigation at a later date when weather conditions are predicted to be similar to the conditions noted by the complainant. Mr. Boone noted for the two reports of odors while driving through PSF property, the report does not allege a violation of the CAFO odor rule. For a violation of the Class 1A odor standard, odors must be experienced at a location beyond the property boundaries of the facility. Odors within PSF property boundaries are not a violation of this standard.									
<b>Comp. No.</b>	NE08923	<b>Comp. Info</b>	On July 6, 2008, the complainant filed the following seven reports of odors from PSF Whitetail for the time period from June 30, 2008, to July 6, 2008: "June 30, 2008, Fred and Leta would like to file an odor complaint. The odor was terrible that morning." and "July 1, 2008, as I drove by the site that morning I encountered strong gassy odors coming off their factory farm. The odors made it difficult to breathe." and "July 2, 2008, as I was driving past their factory farm I encountered strong gassy odors east of their property line. The odors made it difficult to breathe and about made me vomit." and "July 3, 2008, Fred, Leta, and Melody Torrey would like to file an odor complaint. A strong hog manure odor moved in that evening. We where forced to shut the house up and was unable to enjoy our property. Even our company complained about it." and "July 4, 2008, Fred, Leta, and Melody Torrey would like to file an odor complaint. A strong hog manure odor came and went all day before finally settling in that evening. It's terrible, we had to go into the house due to the odor making us sick. Even our company was complaining about the horrible odors that we are forced to put up with." and "July 5, 2008, Fred, Leta, and Melody Torrey would like to file an odor complaint. A strong hog manure smell was still with us the following morning. It was terrible." and "July 6, 2008, Fred, Leta, and Melody Torrey would like to file an odor complaint. The odor moved in around 8:00 to 8:30 that night. It was horrible. We are forced to shut our house up and we are unable to enjoy our property yet again because of this company and their factory farm."

**Dates Received or Inspected : 7/1/2008 though 7/15/2008**

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
NERO		7/9/2008	MIKE GIBSON	Princeton	Mercer	Burning / Asbestos	Anonymous	DLK	
<b>Comments</b>									
<b>Comp. No.</b>	NE08914	<b>Comp. Info</b>	The complainant stated on July 1, 2008, the reported party burned two houses to dispose of them in the town of Ravanna. The complainant is concerned about possible asbestos in the siding of the houses and potential harmful health effects. When the fire department responded, the reported party told them it was a deliberate burning. The fire department responded a second time when they found out the neighboring house was being damaged. The complainant believes the reported party burned the structures because he did not want to pay the cost to properly disposal of the houses.						
NERO	7/11/2008	7/11/2008	PSF WHITETAIL	Unionville	Putnam	Odors	Melody Torrey	SMB	
<b>Comments</b> All complaints are logged and reviewed for development of an effective investigation strategy. Regional office staff will conduct an odor investigation at a later date when weather conditions are predicted to be similar to the conditions noted by the complainant.									
<b>Comp. No.</b>	NE09962	<b>Comp. Info</b>	On July 9, 2008, the complainant filed the following two reports of odors from PSF Whitetail: "July 9, 2008, Melody Torrey would like to file an odor complaint. I first noticed a strong gassy odors that made it difficult to breathe at the private residence just east of their factory farm. The odor continued around the corner and to the top of the next hill before the it seemed to die down some." and "July 9, 2008, Fred and Leta Torrey would like to file an odor complaint. The odor moved in horrible early this morning. We had to shut the house and shop up to keep the odor out and even then it still seemed to come in. It was a strong hog manure odor."						
NERO		7/14/2008	JACK MCCAULEY	Edina	Knox	Burning	Anonymous	MGS	
<b>Comments</b>									
<b>Comp. No.</b>	NE09925	<b>Comp. Info</b>	The complainant stated the reported party is burning debris including shingles.						
NERO		7/14/2008	FERRELL GAS	Brookfield	Linn	Odors / Open Dumps	Dana Donovan	PMM	
<b>Comments</b>									
<b>Comp. No.</b>	NE09928	<b>Comp. Info</b>	The complainant stated the reported party takes customer's propane tanks and stores them outside of their fenced in lot. The complainant would like to know if there is any regulation on where or how many tanks can be stored in a residential area. The complainant believes most of the tanks only have five to ten percent propane in them, but when new ones are brought in, it can take weeks for them to be emptied. The smell can be a bit overwhelming on some days.						
NERO	7/14/2008	7/14/2008	MOSELY CLASS 1C CAFO	Browning	Sullivan	Odors	Regina Palmer	SMB	
<b>Comments</b> Mr. Boone noted an investigation will not be conducted because of the size of the facility.									
<b>Comp. No.</b>	NE09930	<b>Comp. Info</b>	At 12:34 p.m. on July 12, 2008, the complainant filed the following report of odor: "I am reporting foul hog farm odors starting at approximately 11:00 a.m. The odors are at a level of two, increasing in intensity to a strong four now at 12:30 p.m. Winds are from the west northwest." The complainant rated the odors on a scale of one to five with five representing the strongest odors.						

## Monthly Air Pollution Control Program Detail Report

*note: "Comp. Info" refers to complainant information. This is the information the department receives from the complainant and seeks to accurately reflect the nature of the allegation as it was made. Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.*

**Dates Received or Inspected : 7/1/2008 though 7/15/2008**

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
NERO	7/16/2008	7/15/2008	PSF WHITETAIL	Unionville	Putnam	Odors	Melody Torrey	SMB	
<b>Comments</b> All complaints are logged and reviewed for development of an effective investigation strategy. Regional office staff will conduct an odor investigation at a later date when weather conditions are predicted to be similar to the conditions noted by the complainant. Mr. Boone noted for two of the reports, the complaint does not allege a violation of the CAFO odor rule. For a violation of the Class 1A odor standard, odors must be experienced at a location beyond the property boundaries of the facility. Odors within PSF property boundaries are not a violation of this standard.									
<b>Comp. No.</b> NE09973 <b>Comp. Info</b> On July 14, 2008, the complainant filed the following four reports of odors from PSF Whitetail, "July 10, 2008, I encountered strong gassy odors coming from their factory farm as I traveled east of their site. I first noticed them at the private residence." and "July 11, 2008, as I drove by the site going west that afternoon I encountered strong odors coming off their factory farm." and "July 12, 2008, Melody Torrey would like to file an odor complaint. A strong hog manure odor moved that afternoon as it started to rain." and "July 14, 2008, I would like to file an odor complaint on the PSF Whitetail Site. I was visiting with friends this evening and we were unable to visit outside due to the excessive odor coming from there factory farm."									
SERO	7/10/2008	6/20/2008	JOHN & BOB NEIDERKORN	Scott City	Scott	Fugitive Dust / Land Disturbance	Orley Jackson	NW	
<b>Comments</b> Ms. Wilhelm observed the area as stable, not an acre disturbed. Ms. Wilhelm did not observe any violation and spoke with the complainant's son. Ms. Wilhelm requested he advise the department if the area is disturbed again or if any kind of construction begins.									
<b>Comp. No.</b> SE081019 <b>Comp. Info</b> The complainant stated C&S Excavating is clearing out a lot in the city limits and dust is going everywhere. The complainant also stated the reported party does not have a barrier up to block the wind from carrying the dust.									
SERO		7/2/2008	JOKERST INC.	Farmington	St. Francois	Asbestos	Anonymous		
<b>Comments</b>									
<b>Comp. No.</b> SE081076 <b>Comp. Info</b> The complainant reported the demolition of a Wendy's restaurant in Farmington. The complainant is concerned about compliance with the asbestos regulations.

Those statements of allegations do not necessarily reflect the legal standard upon which inspections would be made.*

**Dates Received or Inspected : 7/1/2008 though 7/15/2008**

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
SERO		7/10/2008	CURTIS FELT	Poplar Bluff	Butler	Burning / Asbestos	Anonymous		
<b>Comments</b>									
<b>Comp. No.</b>	SE091081	<b>Comp. Info</b>	The complainant stated the reported party bulldozed a home and has now set fire to the demolition debris, which included insulation and shingles.						
SERO		7/10/2008	NEW ERA BANK	Fredericktown	Madison	Asbestos	Anonymous		
<b>Comments</b>									
<b>Comp. No.</b>	SE091082	<b>Comp. Info</b>	The complainant stated the reported party is removing asbestos tiles at a bank.						
SERO	7/10/2008	7/10/2008	MAGRUDER CONSTRUCTION	Rolla	Phelps	Burning	Steve Feeler	MO1	
<b>Comments</b> Ms. Michelle Oglesby, an inspector with the SERO, visited the site on July 10, 2008, and observed evidence of open burning at Beaver Creek Bridge road construction. Mr. Jeff Grandcolas, project manager for Magruder Construction, admitted to burning "scrap boards" and "trash" found in the construction zone. Mr. Grandcolas stated it is company procedure to have a dumpster on-site, however, when his company has a dumpster located on a remote site, there is a problem with promiscuous dumping at night and over the weekends. Mr. Grandcolas told Ms. Oglesby he was trying to avoid "removing" someone else's waste and he was unaware of the state regulation for open burning. Ms. Oglesby took photographs on-site with Mr. Grandcolas' permission. Ms. Oglesby gave and discussed technical bulletins with Mr. Grandcolas for facts on open burning and managing construction and demolition waste.									
<b>Comp. No.</b>	SE091123	<b>Comp. Info</b>	The complainant reported open burning of trade waste.						
SERO		7/11/2008	JEFF RIDDLE	Dexter	Stoddard	Burning / Open Dumps	Mrs. Wayne Patterson		
<b>Comments</b>									
<b>Comp. No.</b>	SE081073	<b>Comp. Info</b>	The complainant stated the reported party is dumping trash and household items and someone has set the pile of trash on fire. The fire caught the tree tops on fire. The complainant can feel the heat under the ground burning. The smoke came in to three or four houses and forced elderly people out of their homes.						
SERO		7/15/2008	BILLY LEE	Annapolis	Iron	Burning / Open Dumps	Billy Edwards		
<b>Comments</b>									
<b>Comp. No.</b>	SE091083	<b>Comp. Info</b>	The complainant stated the reported party is dumping very large piles of trash and burning them at night. The trash is coming in dump trucks from houses the reported party is gutting in the Arnold area. The complainant is concerned because their 80 year old mother lives next door to the site.						
SERO		7/15/2008	BILLY LEE	Annapolis	Iron	Burning / Open Dumps	Ruth Kennedy		
<b>Comments</b>									
<b>Comp. No.</b>	SE091086	<b>Comp. Info</b>	The complainant stated the reported party is dumping very large piles of trash and burning it at night. The complainant is concerned for her mother's health.
